

Scanno

Be In And Out In A Shot With The Scanno Tactical X-Ray System

SCANSILC 1824 or SCANNO - is designed for users that need to take high quality x-ray images but don't want to carry around a bulky pelicase or backpack.

This innovative rugged x-ray system comes in a small fitted canvas bag and is configured for you to operate quickly and discreetly. Saving operators the usual system setup time on the job, the SCANNO configuration allows you to place your x-ray panel and source on target, then fire and view the x-ray in less than one minute.

SCAN-NO

- NO** cables, cords or connectors to deal with
- NO** trailing wires to trip over
- NO** bulky communication boxes near the target area
- NO** wi-fi drop outs to worry about
- NO** wireless interference issues
- NO** wasting time and
- NO** hassle

Key Scanno Features

Total system operational weight of 11 lbs

Pre configured for fast grab and go deployment

Best in class imaging quality of 76 microns

Uniquely designed for security applications with a ruggedised unibody design - not a fragile medical panel in a protective cover

Unique 'panel' IP67 environmental protection against dirt, dust and water ingress
